If you have set hover image for product then this image will be displayed otherwise hover effect will not be applied.

Product Wishlist:

Add favorite products by clicking on the alternative button to a special list called Product Wishlist in your Ecommerce Store.

My Wishlist

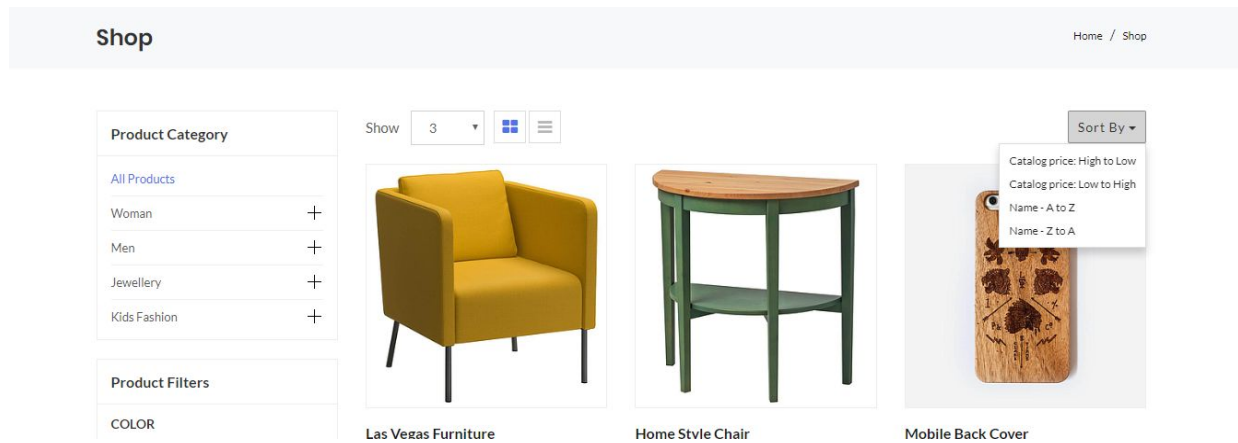

☐ Add product to my cart but keep it in my wishlist

	Home Style Chair <p>On the other hand, we denounce with righteous indignation and dislike men who are so beguiled and demoralized by the charms of pleasure of the moment, so blinded by desire, that they cannot foresee the pain and trouble that are bound to ensue; and equal blame belongs to those who fail in their duty through weakness of will, which is the same as saying through shrinking from toil and pain. These cases are perfectly simple and easy to distinguish. In a free hour, when our power of choice is untrammelled and when nothing prevents our being able to do what we like best, every pleasure is to be welcomed and every pain avoided.</p> <p>Remove</p>	\$ 79.00	ADD TO CART
	Mobile Back Cover <p>At vero eos et accusamus et iusto odio dignissimos ducimus qui blanditiis praesentium voluptatum deleniti atque corrupti quos dolores et quas molestias excepturi sint occaecati cupiditate non provident, similique sunt in culpa qui officia deserunt mollitia animi, id est laborum et dolorum fuga. Et harum quidem rerum facilis est et expedita distinctio. Nam libero tempore, cum soluta nobis est eligendi optio cumque nihil impedit quo minus id quod maxime placeat facere possimus, omnis voluptas assumenda est, omnis dolor repellendus. Temporibus autem quibusdam et aut officiis debitis aut rerum necessitatibus saepe eveniet ut et voluptates repudiandae sint et molestiae non recusandae. Itaque earum rerum hic tenetur a sapiente delectus, ut aut reiciendis voluptatibus maiores alias consequatur aut perferendis doloribus asperiores repellat.</p> <p>Remove</p>	\$ 51.00	ADD TO CART
	Las Vegas Furniture <p>But in certain circumstances and owing to the claims of duty or the obligations of business it will frequently occur that pleasures have to be repudiated and annoyances accepted. The wise man therefore always holds in these matters to this principle of selection: he rejects pleasures to secure other greater pleasures, or else he endures pains to avoid worse pains.</p>	\$ 399.00	ADD TO CART

Product Sorting:

Give your customers effective option for product Sorting option.

1. Sort your products by ascending or descending price.
2. Sort products by alphabetical order A to Z or Z to A.

Product Ribbon:

Apply product ribbon to your designed products.

1. Activate the developer mode.
2. Go to Sales/Products Menu.

The screenshot shows the Odoo product form for 'Cabinet with Doors'. The top navigation bar includes 'Website', 'Dashboard', 'Orders', 'Products', 'Blogs', 'Reporting', 'Configuration', and 'Website Menu'. The breadcrumb trail is 'Products / [E-COM11] Cabinet with Doors'. The form has tabs for 'General Information', 'Product Tabs', 'Sales', 'eCommerce', 'Purchase', and 'Inventory'. The 'eCommerce' tab is active, showing a 'Shop' section with fields for 'Website', 'Categories' (set to 'Cabinets'), 'Availability' (set to 'Sell regardless of inventory'), 'Alternative Products', 'Accessory Products', and 'Styles'. The 'Styles' field is highlighted with a red box. Above the 'Shop' section, there are checkboxes for 'Can be Sold' and 'Can be Purchased', both of which are checked. To the right of the form, a summary box displays key statistics: 'Published On Website', '8,000 Unit(s) On Hand', '128,000 (-0.000) Forecasted', 'Product Moves', 'Reordering R...', and '0.00 Unit(s) Sold'. The 'Active' status is indicated by a green checkmark.

3. Set Style field value.
4. Style label display as ribbon in website.

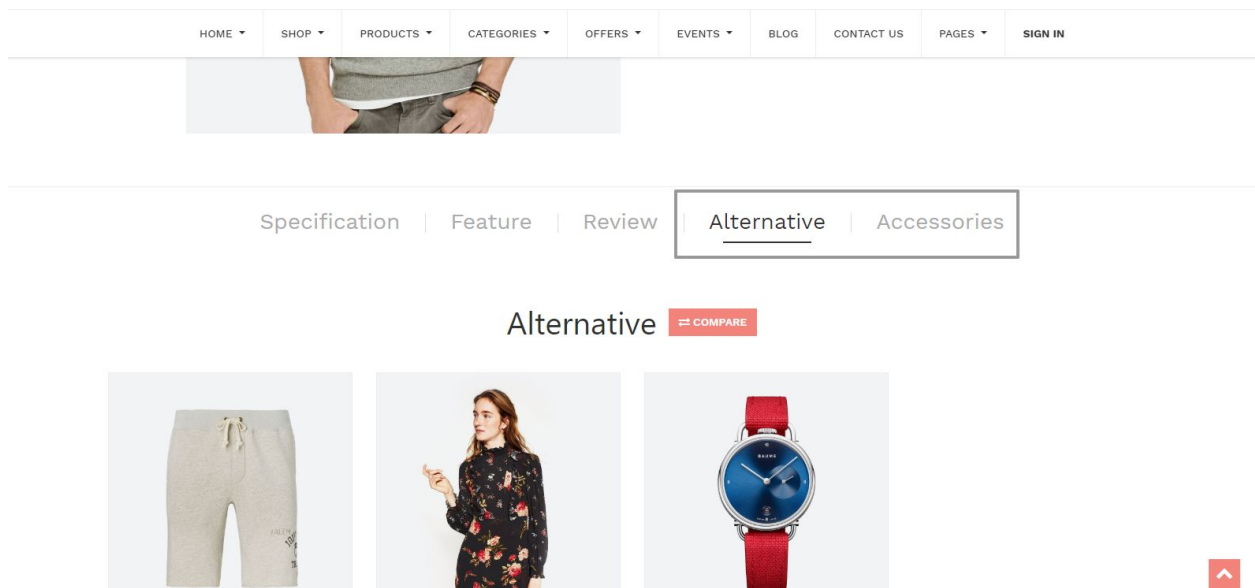

Accessory And Alternative Product Slider:

You can add required Accessory and alternative products in selected products using odoo default flow product selection.

1. Go to Sales/ Products Menu.
2. Add **Alternative and Accessory** product values.

The screenshot shows the 'Website' admin dashboard. The top navigation bar includes links for Dashboard, Orders, Products, Blogs, Reporting, Configuration, and Website Menu. The user is logged in as 'Admin (alan_theme_11)'. The main content area displays the 'Products / [E-COM11] Cabinet with Doors' page. On the left, there are buttons for 'Save' and 'Discard', and a status bar showing '1/1' and navigation arrows. Below this, there are buttons for 'Update Qty On Hand' and 'Replenish'. The product details form includes a 'Product Name' field with 'Cabinet with Doors', a 'Brand' dropdown, and checkboxes for 'Can be Sold' and 'Can be Purchased'. A summary box on the right shows 'Published On Website', '8,000 Unit(s) On Hand', '128,000 (-0.000) Forecasted', '0 Product Moves', '0 Reordering R...', and '0.00 Unit(s) Sold'. The 'eCommerce' tab is active, showing 'Shop' settings like 'Website', 'Categories' (Cabinets), 'Availability' (Sell regardless of inventory), 'Alternative Products' (FURN 6666 Acoustic Bloc Screens), 'Accessory Products' (DESK0004 Customizable Desk (B)), 'Styles', and 'Hover Image' (Upload your file). There is also an 'Extra Images' section with an 'Add' button.

3. Suggested products will be display in products detail page at bottom with tab.

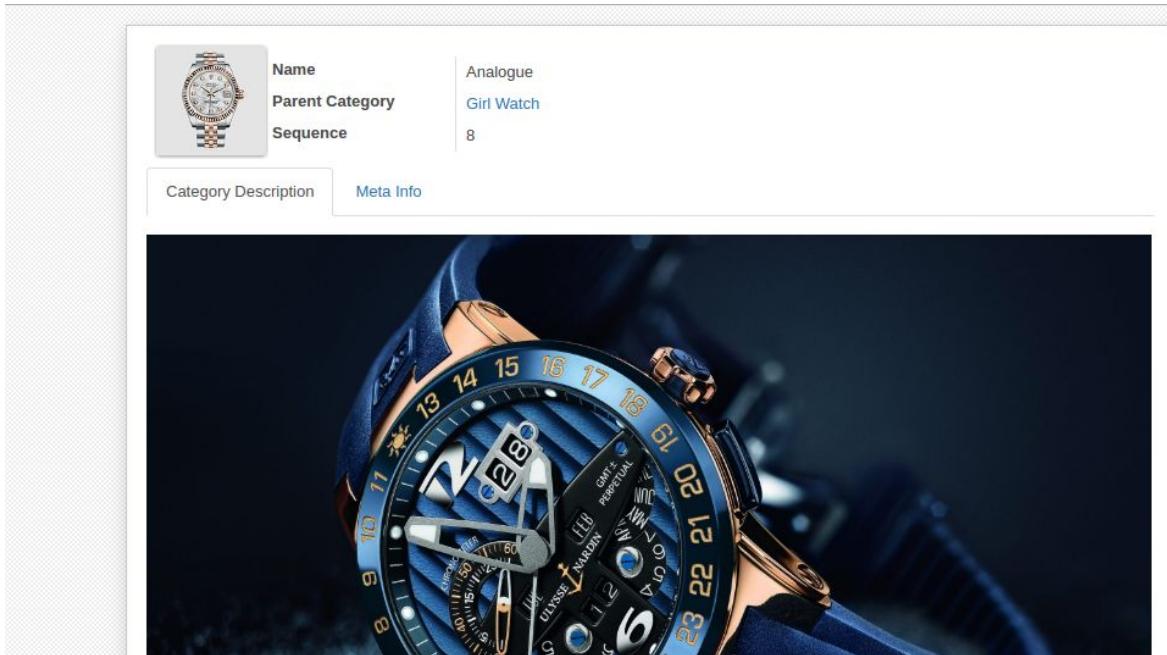

Category Description:

Manage your category description with good image and manage for each category from admin or from website drag and drop snippets.

Define your category landing page with image and description.

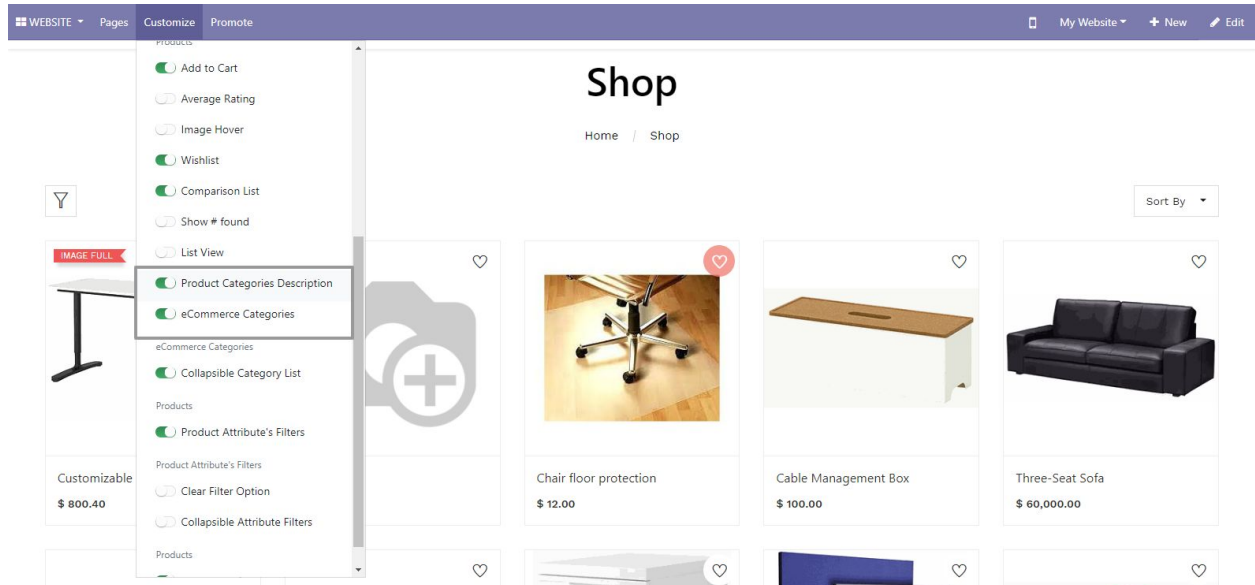

1. Go to Website /Products/ Ecommerce Category.
2. Set category description value and image.

Go to Website Shop page.

Activate Product Category option.

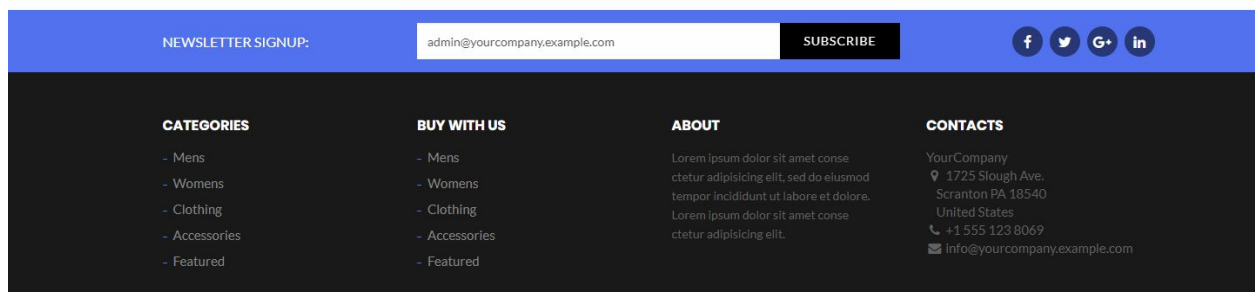

Activate Product categories description.

Footer Customization:

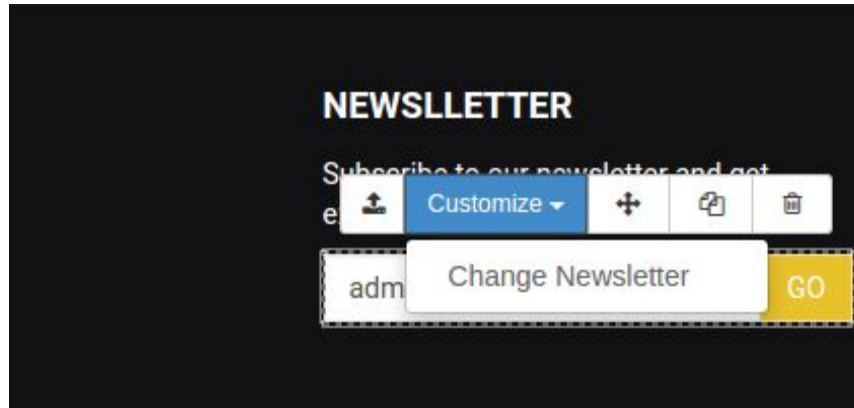

We have modified default odoo footer structure. You can easily edit custom footer using edit feature.

We have added newsletter feature in Footer.

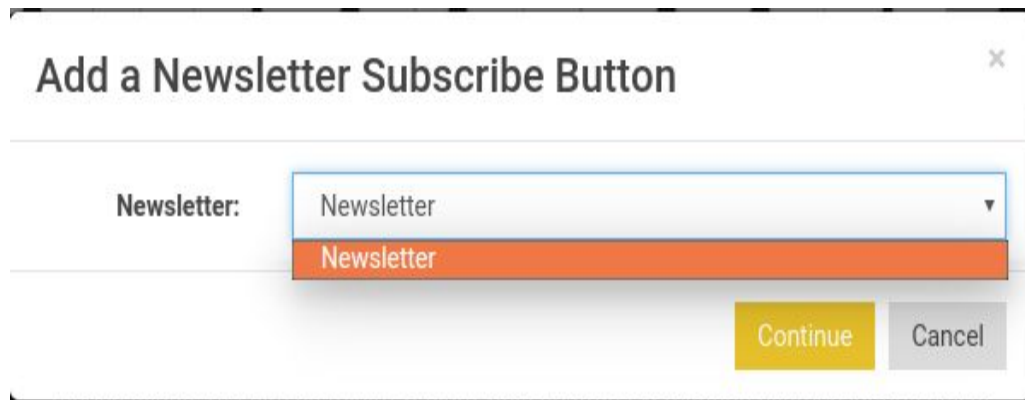

Steps to configure newsletter in your site.

1. Click on edit button.
2. Select newsletter input
3. Customization option will be shown
4. Click on customize menu.

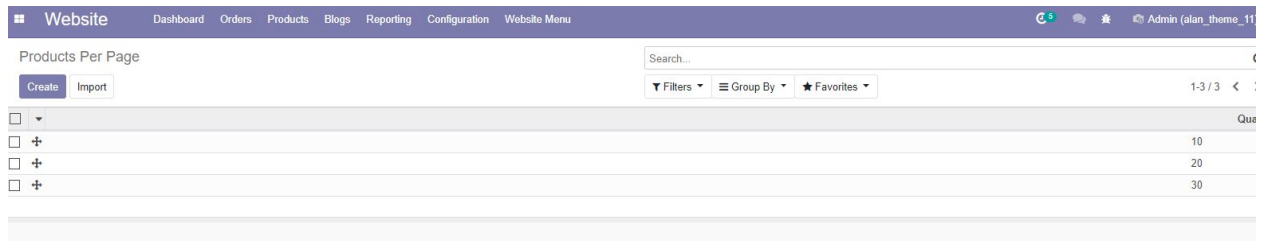

5. Click on Change Newsletter menu
6. Popup will be display.

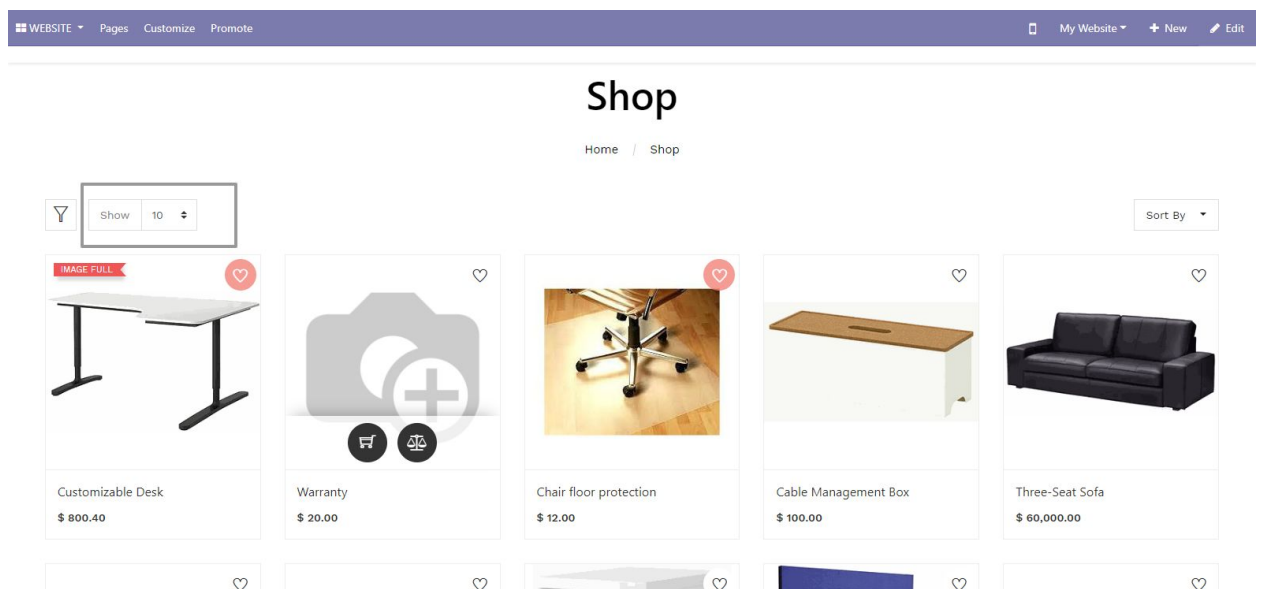

7. Select Newsletter which you want to configure.
8. Click on continue button.
9. Click on save button.

Products Per Page:

We have add new feature call “Products Per Page” to show you desizer products per page and first element would be default in dropdown in website.

Website it will show as dropdown in shop and category page.

Infinite Loader (Shop & Category):

We have added new Product Infinite loading option that works with product per page feature. In shop and category page you can enable Load More option on click it will load more products. You can also choose default paging option.

The screenshot shows the 'Website' settings page. The sidebar on the left includes links for CRM, Website, Inventory, Invoicing, Email Marketing, Events, and General Settings. The main content area has a 'Settings' header with a search bar and 'Save'/'Discard' buttons. Below this, there are sections for 'Multi-Websites' (checked), 'Link Trackers' (checked), 'Google Maps' (unchecked), and 'Shop Page Configuration'. The 'Shop Page Configuration' section includes 'Shop Product Loader' with options for 'Infinite Loader' and 'Pagination' (selected). A 'Products' section is also visible at the bottom.

Breadcrumb:

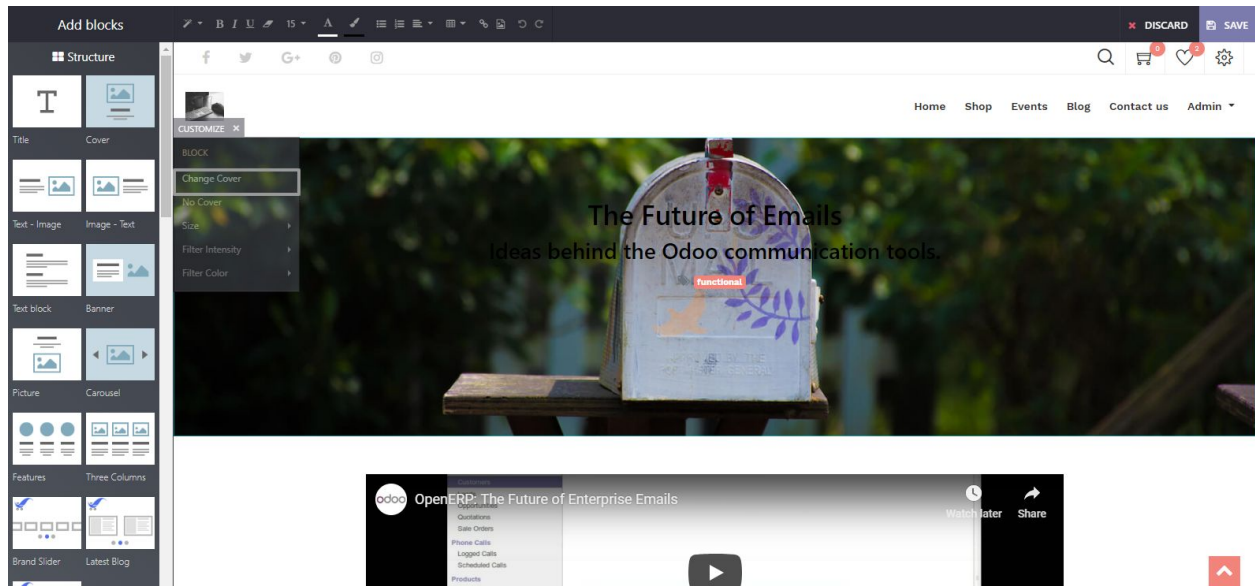

We have added feature where you can upload your breadcrumb image from admin. Website → Configuration → Setting.

This screenshot shows the 'Breadcrumb' configuration section within the 'Website' settings. The 'Do you want to disable Breadcrumb?' checkbox is unchecked. The 'Breadcrumb Image' section features a camera icon for uploading an image. Below this, there are input fields for 'Padding' (set to 10px), 'Remove Breadcrumb background image?' (checked), 'Text Color #' (set to #000), and 'Background Color #' (set to #fff). To the right, the 'Website Title' section shows the name 'My Website' and a favicon. Further right, the 'Languages' section shows 'English' as the selected language, and the 'Domain' section shows 'www.odoo.com'.

Admin can also disable breadcrumb option from setting. You can set text color , background color and manage height using padding.

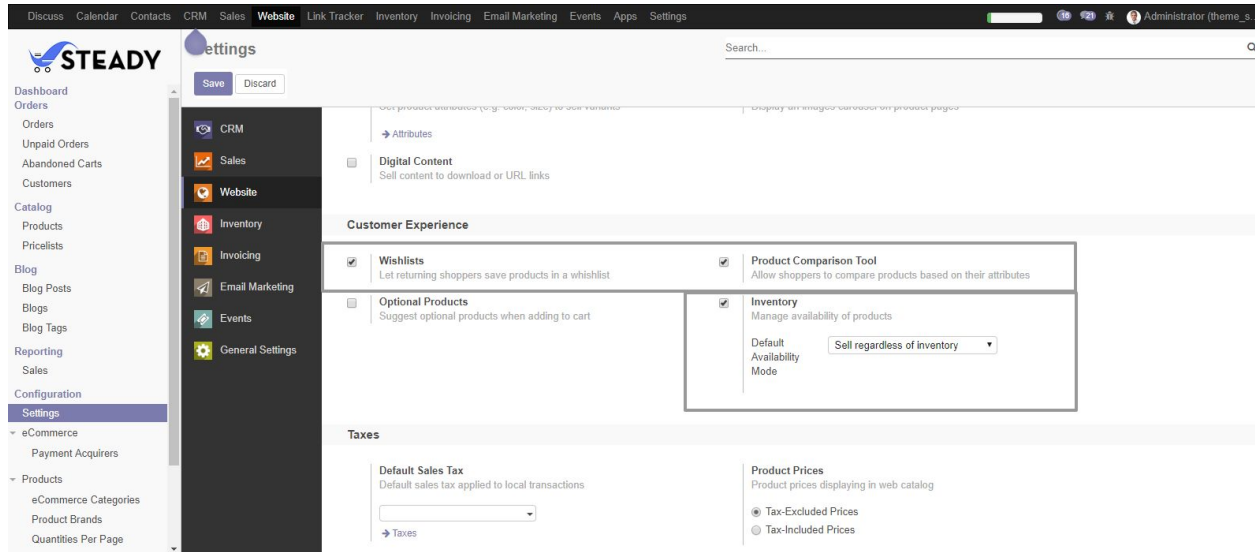

Blog Post Slider Image:

We have used odoo default Blog cover image in blog slider image. You need to upload cover image to show in blog slider.

Import Point to Note:

We have user Wishlist , Product Compare Tool and Manage Availability Of Product Odoo default module dependency and those option auto install module so our theme auto uninstall due to depanacy. Please not do untick for this 3 options.

Thank You
